## *Healing Process*

DAY 1 - my new brows are a.m.a.z.i.n.g

DAY 2-4 - appear too dark and thicker than you wanted

DAY 5-10- -they may now be flakey and unpleasing to the eye. don't panic.

DAY 10+ -they are too light now, you may be thinking whats going on.

2-4 WEEKS - yay brows are back, just need a little top up.

REMEMBER PERMANENT MAKEUP IS A TWO STAGE PROCESS, SO BE PATIENT, IT WILL BE WORTH IT !!
